POWER CORE

29, April 2022

As a member of PowerCore for over a year, I've been thoroughly educated on the Mo Lima Photography experience. Recently, I've made many changes to my business, but I overlooked professional headshots.

I decided to set up an appointment with Mo Lima. Prior to our appointment I showed Mo the main headshot on my website. She told me I looked green. I was ambiguously surprised yet knew exactly what she meant.

On the day of our photo shoot, I didn't know what to think. How long will this take? Did I bring the right clothes? What about my shade of green? Upon entering her studio, Mo eased all tension by casually answering my questions while explaining how the photography session would flow and flow it did.

Our sessions started and Mo gave me a few directions, told a few jokes to keep things light. About 20 minutes later I felt like a model. I was laughing, changing outfits, lights were flashing we were having a blast. And then, it was over. We reviewed the amazing pics, and the shoot was over in approximately one hour.

Next it was time to present the headshots to my social media word. The images were a hit. I received so many compliments from all my social media platforms. One potential client mentioned how great my website looked especially my headshot.

Thank you, Mo, for the wonderful experience. If you want to work with one of the best photographers in the business Mo Lima is the one.

Ronnie Kenyatta

A handwritten signature in black ink, appearing to read "R. Kenyatta", written in a cursive style.
