Dear Dr. Hornbuckle,

Having to work all day constantly, standing for hours and sitting slumped over for five plus days a week puts a huge amount of stress on my neck, back, legs and feet. Ignoring the pain, especially over 35 years old, is no longer an option. The car accident I had in 2018 made my neck issues even worse, stopping my range of motion to one side completely and even though I received therapy after the accident the problems came back after a year.

Thank you so much for taking the time to get to the root of my issues. The detailed questionnaire and consultation helped me to be specific about what was hurting and when it began. Your treatment was thorough, and I can honestly say that being able to turn my neck to the right with ease again is a great relief. The stretches you gave me are invaluable and each time I come in for an adjustment, I feel 100 times better.

Thank you for the care, expertise and time you have put into treating me. I truly appreciate your experience and commit to the healthcare you provide.

With Much Gratitude,

Jamecia Bowers
