Dear Dr. Michael Axt:

I'm 6'5" and have had chronic spinal problems most of my life and have seen many chiropractors over the years. Dr Axt is among the best I have been treated by. His knowledge of the human anatomy is surprisingly thorough. His repertoire of adjustment methods and techniques is remarkable. He has never failed to put things back where they belonged (no matter how odd) and I always feel better afterwards. I can work and do without fear, knowing Dr Axt will put me back together.

I whole heartedly recommend Dr. Axt to anyone who might have special (or not so special) problems. Dr Axt is one of the good guys that make Chiropractic a great alternative to drugs or surgery.

Thank you.

Sincerely,

Andrew P Jones, Jr.
