Re: Endorsement of your Services

Dear Jason,

I am writing to endorse your services in the hopes that others will benefit from your knowledgeable, friendly counsel.

I appreciate that you reached out to me promptly when I expressed an interest in information about disability policies to protect myself and my family in case of an injury or illness. You provided valuable advice about the available policies and coverage levels. Once I made my decision and applied with one of the highly rated companies you work with, you kept me informed throughout the application process and answered all my questions. We met in person for you to deliver the policy documents.

I was very pleased with my experience working with you. It is clear that you care about your clients and that you want to help them find the best possible policy depending on their individual circumstances. I have had the opportunity to recommend you to clients in the past and will continue to recommend you highly given my own very positive experience.

With Appreciation,

Katherine Sparks
