Dear Kriston:

This letter is to express my deep appreciation for all the excellent work you and your staff have done for me over the years, specifically, creating my logo and designing and maintaining a professional website for my law practice. You recall that my previous website was a DIY through Wix, with no logo.

During the development of the new website, your communication was clear, and you were responsive to all my suggestions, ideas, and feedback. You were very patient with me and generous with your time. I was very satisfied.

You are one of the most talented and creative persons I know. More importantly, you are one of the most ethical, honest, and disciplined persons I have ever worked with. It's been a real pleasure. Thank you again for everything you've done.

Sincerely,

Paul Shimek III
