Peter,

Thank you for the speed and ease with which you helped me with my dad's 2021 tax return and thank you for facilitating all the paperwork needed by the IRS to account for dad's recent move to Georgia.

I've been plowing through mounds of paperwork and wasn't shocked to find that he'd forgotten to file his tax return. While it was a simple return, knowing you would take that chore off my overly full plate brought great relief.

Thank you for taking this on. Your care and professionalism meant a lot during this challenging time of change with dad. We truly appreciate you.
