When it came time to renew my home and auto insurance, I reached out to Amy for a new quote. She was able to lower my rates and save me around thousand dollars a year. A few weeks after moving my insurance to her, I ran into a situation with a vendor program my business was trying to sign up for. I reached out to Amy and her assistant Karen for help. Karen took it from there and she was able to satisfy the vendors requests and make the process easy for me. So not only did I save money, but the customer service was also second to none. I recommend anyone who wants to try and save money they should reach out to Amy and get a quote and do it with no fear of loosing any quality in service.

Thank you so much,  
Justin Cox
