Re: Roof replacement for my home

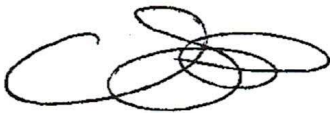

Dear Donna,

I want to thank you and your team for doing an excellent job replacing my roof, and for making the process so easy. For two years, every time it would storm, we had multiple strangers knock on our door offering to give us a "free" roof.

Once I met you I knew that I had found someone I could work with who I could trust, and my instinct was proven right. You were responsive, you cared about my concerns as if they were your own, and I could not have been more comfortable with the process.

Donna, I'll happily recommend you and your company to anyone who needs any service with their roof.

I am, very truly yours,

Lee Pruitt
