Tyrone, GA 30290

Dr. Jackie-

I could not let you leave our PowerCore team without writing you a letter detailing how you made a difference in my family's life.

My husband, Ken, was diagnosed as a Type 1 diabetic when he was 11 years old. As a self-employed person with that diagnosis it is virtually impossible to get any kind of affordable, meaningful medical coverage. I worked for nearly 3 years in an office doing work I didn't like with people who were toxic, at best, just so that we would have health insurance.

The time came for me to leave that environment and return full time to what I loved - real estate, but the health insurance hurdle was there. Fortunately, a member of Ken's PowerCore team had heard about you and your practice.

I called your office almost exactly 2 years ago and your staff told me about your practice and Liberty HealthShare - a medical sharing plan that anyone could join and be considered covered under the ACA.

To make a long story short - we joined Liberty and are saving nearly \$1500 a month over what I was getting at that J-O-B, with a lower deductible and paid for annual exams for each of our 4 family members. The prescription plan doesn't discount the insulin he has to take, but even with that cost we are still saving money. Ken had a procedure done 2 months ago and to-date all the expenses have been covered by the group. I will have to have minor surgery later this month, and so far all the appointments have been covered and I have every reason to believe it will be covered after my deductible is met.

The information you and your staff shared has made a difference in our family - not only financially, but it has allowed both Ken and I to do what we love to do, which surely has physical and mental health benefits in and of itself.

I have found you to be a knowledgeable and caring doctor who works her passion with integrity. When you say, "It's about the care - not the coverage" you mean it. We are grateful to have crossed paths with you. We wish you every blessing in your private life, your practice and during your service at the Fayette CARE Clinic.

Warmest regards,

Annie DeRose-Broeckert
