Tucker, GA 30084

Dear Jamecia:

After struggling with adult-onset cystic acne from the time I was 20 years old, I have always hated my skin. I always thought people were staring at me and I am very self-conscious of not wearing makeup. Being an image consultant, I am always aware of how I present myself.

I went to Jamecia this past weekend for a microdermabrasion facial and glycolic acid peel. I was concerned that I wouldn't be able to go out for my birthday dinner after the peel, as I may experience major peeling, to an embarrassing degree.

Jamecia assured me I would be just fine. The facial was so relaxing, and my skin feels so smooth as a result. Afterward, she gave me a sample of a Image Skincare that she used for her own acne treatment. She said to follow the instructions on the box and that my skin would be looking great in no time.

Wow, was she right! The second day, I had some peeling, but it was minimized by the moisturizer she provided. The third day (my birthday), my skin was back to normal, but better! My mom Facetimed me that day and she made a comment on how good my makeup looked, and she is not one to notice things like that!

I have two more sessions with her, and I can't wait to go back! The experience was amazing, and my skin is looking better and better each day. I would not hesitate to recommend Jamecia to family and friends. Thank you so much for giving me a confidence boost!

Best regards,

Leah Kruszka
