Tommy,

I want to thank you for making the transition process from one financial advisor to another so smooth and painless. After such a nerve-wracking experience from a previous company, you have rebuilt my trust in the industry.

You helped us think through our long-term goals before recommending any investment and actually helped us save money with a long term disability plan, something we hadn't even thought of.

As a small business owner, every penny counts and any financial decision is tough. I have faith that our investments are in safe hands and I will never hesitate to send people your way. As our company grows, your firm will be one of the first I'll call for employee retirement benefits.

If you ever need a reference, please don't ever hesitate to send someone my way. I'll be sure to let them know that I barely had to lift a finger and everything was just magically done for our family. I didn't even have to make calls to follow-up (which is, as I'm sure most people know, a rarity these days).

We look forward to working with you over the years to come.

Warmest regards,
