Sept. 2, 2020

Dear Madeline and Alec,

Thank you so much for the great job you did in replacing our roof and gutters after a bad hailstorm came through a few months ago. I was impressed with GO Roofing after seeing your Roof In A Bag demonstration describing the quality materials and professional workmanship your company provides. And Ken and I appreciated your explanations of the insurance claim, scope of work and contracts.

Within a couple of weeks we were on your schedule. Installation and clean up for both the roof and the gutters was quick and thorough. The installers were considerate of our property and polite in their interactions with me. It was an added bonus to have Stacie Szell from Legacy House Interiors stop by. She provided expert advice at no charge to help us choose a gutter color that compliments the shingles, siding and shutters. I also appreciate your flexibility in payment arrangements as we waited for the checks from the insurance company.

I was completely satisfied with the roofing and gutter services you provided, so when several of my neighbors complimented your work, I was happy to share your contact information with them. And it was a sweet surprise when a gift of brownies on a serving board arrived by mail a couple of days later.

I can highly recommend GO Roofing Atlanta to anyone needing a trusted and professional roofing company

Many thanks,

Linda M. Loud
