Dear Curtis,

You have earned my most sincere thanks for helping me navigate the confusing process of enrolling for Medicare without having to go through a Market Place Navigator. Having listened to your presentations the past several years I knew that you, as an independent broker, would be a trusted source for figuring out what coverage would be best for me in my circumstances.

You provided me with different plans to review and compare. You were so willing to answer the twenty-dozen questions I had. You patiently waited while I weighed my options as to which Advantage plan to choose. I got signed up in May so that my coverage would begin 3 days before my birthday. I received all my documents and cards in the mail shortly thereafter. The whole process was relatively painless!

I appreciate and can highly recommend you for your knowledgeable insight, your caring attitude and your professional expertise.

With deep gratitude and respect,

*Linda M. Loud*
