Dear Jamecia,

For a teenage girl, prom season brings a plethora of choices – date, dress, shoes and most of all hair and makeup. But this season the SAT was also a choice and it was on the same day of the prom! I knew I wanted to do something special for my niece and when you showed me pictures of your makeup application, I knew I had found the perfect prom gift.

From the moment she walked into your spa area, she forgot about the stressful SAT she had just completed and melted into relaxation mode. You pampered and prepped her skin and your makeup application was FLAWLESS. You tastefully enhanced her natural beauty and not only were we pleased, but her Mother as well. She was the awe of her friends that evening.

Another prom season is fast approaching and not only will we book your makeup application again, but also a facial. We enjoyed your services and your attention to detail and will recommend your services to anyone looking to enhance their natural beauty in a stress-free, relaxing environment.

Thank you,

Qualena Odom-Royes
