## Revenue Cycle Management

July 15, 2020

David Machost

David,

Thank you so much for quoting our home, auto, and umbrella policies. My husband and I received notice that our homeowners insurance rates were going up so we contacted you for your help.

You went through the options with my husband on various policies and outlined coverages we needed but didn't have. You also gave us an easy to read spreadsheet to help us make a decision.

We now have better coverage at a lower price with a respected insurance company.

Insurance might be boring, but it is a needed protection and you understand the coverage we all need and give great advice!
