David

I would like to take this opportunity to thank you for your assistance over the past year. It is has been almost 1 year since Aimee had her accident where she was hit from behind. Aimee called me about the accident and as I was on the way to meet her I was contacting you. You answered the phone right away and immediately began providing us with pertinent and valuable information that in a time of very high stress and anxiety would have been overlooked.

Your guidance and assistance from 10 minutes after the accident happened up until today and that I know will continue into the future has been immeasurable. You were by our side and in our corner at every turn, at every question and at every concern. You simply cannot put a price on the knowledge, expertise and assistance you have given us.

As you know this is an ongoing event and we will have more questions in the future. It is calming to know that with a simple phone call to our insurance agent that questions will be answered, concerns will be put at ease and objective information will be given us as we move forward. It is with confidence and full trust that I will recommend you and Garrett Insurance to anyone I come in contact with that has concerns or issues with their insurance.

Thank you for everything you have done so far and your continued assistance into the future!

Respectfully

Jim & Aimee Klun
