Have you ever been to a beauty counter in the mall? Yeah don't ever do that again. I have never met a beauty consultant who works so hard to make sure that you have an amazing experience with every product. As a graduate student, sometimes the best self care I get is putting on my Mary Kay foundation. Linda made finding the right shade and right products for my skin easy. Her beauty pink points keep me coming back for more! I just bought my Mother's day present from her and it arrived beautifully tied with ribbon. Linda definitely goes over and beyond what you expect. I will continue to buy Mary Kay because Linda will continue to be absolutely amazing!
