Dear Linda

This endorsement letter is a "thank you" for the pampering you showed by friends at the Mary party at my house a couple months ago. Like my, my friends and I struggle finding quality, competitive-priced products for aging skin.

Throughout the Mary Kay Party, you were very informative of your products and gave us your professional wisdom on which types of products and colors of make-up you would recommend for us. One of your projects, all three of us were amazed at the immediate results on reducing facial lines. This party was a wonderful time and would recommend to others a make-up session or party with you.

Today I use the Mary Kay foundation and moisturizer which makes my skin look younger and fresher! Months after this party, Patti Gordon loves your "Miracle Product: which reduces the lines on her face. As far as customer service, both of us agree how impressed we have been with your follow-up, desire to meet our needs, and appropriate emails to remind us of your products.

Here's to many more referrals!

Respectfully yours,
