Oren,

Thank you to taking care of my friend and client Merrilee. She appreciated that she was able to share your webinar with your sons, and she is confident that you will take care of her needs for a trust to make things easier when her passing comes.

She's worked hard, saved smart, and taken good care of her children and grandchildren. Knowing she's prepared to continue to care for them after she's gone is giving her peace of mind.

Thank you again for taking good care of my friend. We both appreciate it.
