Measure What Matters!

10/12/22

Hi All,

I have been working with Dr. Mike Fenster at House of Chiropractic for about a year now. I have seen chiropractors sporadically over the years and was looking to get adjustments more regularly. Dr. Mike is energetic, happy, and full of knowledge. His goal, as he explained it to me, is to keep my body in optimal condition to promote healing.

I started going, often at first, because I had a shoulder injury that heal up after about 3 visits. Having regular adjustments to keep me in optimal shape has probably solved problems before I even notice them. But I do notice that my neck, shoulders, and back feel good and mobile. I am over 50 and I go to yoga with confidence.

Thank you, Dr. Mike,

Eve Lemon
