Powder Springs, GA 30127

Dear Steve,

As you know, in addition to building a business with Tempo Wireless I also pastor a church off of Sixes Rd in Canton. For a while the leadership of the church recognized the need to remodel and update our church foyer as you enter into the sanctuary but hadn't taken action to do so. At the beginning of the year a mutual PowerCore team member and friend of ours, Kriston Sellier with id8, had come to the church to discuss branding and how the church could better position itself in the minds of our community. Part of the discussion was about our grounds, signage, and ways to simply make a great first impression with guests and she mentioned the need to update our church foyer. Kriston's remarks were on target and the leadership decided to move forward with this project.

There were many things needed to be done for our remodel and one of the most important things was the selection of great flooring. We decided to go with a ceramic tile and I immediately thought of connecting with you and Carpet Direct. That was a great decision as you made the selection process very easy, gave us a very good quote, the delivery of the new tile was punctual, and you even came by the church to see the tile and our finished project. Your professionalism and courtesy spoke volumes and for that I am grateful.

The church is looking to do some new remodeling projects in the near future and I know we will be in contact with you!

Thanks so much,
