Dear PowerCore Staff:

I recently wrote a letter of endorsement highlighting Dustin Hansen. However, I am long overdue in writing a letter of endorsement for Dr. Mike Tuminello of Life Empowerment. Back in March, I bent down and heard a snap in my back as I tried to stand back up. Instantly, my entire back was immersed in pain. I could not sit up straight or barely sit. The pain was excruciating and unbearable. I contacted Dr. Tuminello immediately and he asked me to come in, even though my medical benefits had not yet kicked in.

After a couple of treatments, my back was back to normal and the pain had ceased. Dr. Tuminello continued to treat me despite the fact that I had no benefits. Dr. Tuminello has a wonderful practice and staff. Not only do they provide chiropractic care, but they provide total wellness as a whole. I constantly encourage people to see Dr. Tuminello no matter what their ailment is.

If you know of anyone that is seeking chiropractic care or looking to switch to a healthier lifestyle; please send them to Dr. Tuminello at Life Empowerment. I assure you that they will be in "Trusted Hands".

Sincerely,

Cecily Wagner
