Memo to: Dr. Mike

From: Larry Fried

At 10:20 AM you adjusted my back, or as I like to say straighten me out.

After adjustment was finished at 11:00 AM, I left your office, and had a super day. I felt so great and my 20% pain was gone, and as you pointed out so was the 80% pain in my lower back and hips.

I just wanted to let you know that one of your elder patients really appreciate you, who you are, and the good "health" you bring to us.

Thank you for who you are and you know I will continue to refer patients to you, always.
