Dear Carol,

I am not sure where to begin. Your passion and enthusiasm to help people transform their lives through JuicePlus is so encouraging. Your educational approach helps people hold themselves accountable for their own health by offering a solution.

As a health insurance professional, I see first-hand the evidence of what happens when someone neglects their own health. Unfortunately, people are quick to blame others when their health conditions are uninsurable, but more times than not, it comes down to 3 fundamental truths – eating healthy, exercising regularly, and getting plenty of rest.

In my opinion, JuicePlus is a win-win for anyone who leads a busy life and wants to ensure that their body receives the optimal amount of nutrients from whole-food. I know my body thanks me everyday for feeding it those easy-to-swallow capsules. Also, thank you for taking the time to educate my daughter who is in nursing school. I know she's already a JuicePlus advocate and one of your biggest cheerleaders.

Thank you for all that you do and best wishes for continued success as you continue to add-value to people's lives.

Sincerely,
