Dear Dr. Casey -

You are affectionately called Dr. VooDoo for good reason.

When Roy was in such horrid pain from sciatica after breaking his hip, you came to the rescue. I watched as you relieved his pain. You were definitely in 'The Zone' when caring for him. Then after my fall, your care was phenomenal as well. And we cannot thank you enough.

AND you're helping me with my fear of snakes, Dr. Casey. You know I'm just being ornery when you tell me, 'Think about snakes, Rory,' and I retort with 'No, YOU think about snakes!' during the treatments. I'm able to enjoy living out in the country in our cute little abode in the trees, with much less paranoia about snakes.

So, . . . Dr. VooDoo, we both thank you so very much!

Kindly,

Roy & Rory Williams
