Connie Cooke
Reformation Health Massage

Dear Connie:

I was fortunate for many years to have a wonderful massage therapist who really helped me identify the consequences of the stress that I was inflicting on my body and helped to soothe them. Unfortunately, she moved out of state and was no longer available to me. After that, I tried many different professionals, some were just O.K and some seemed to have the attitude of "no pain, no gain".

After my first session with you, I knew that I had found someone who lived up to the expectations that my first therapist had instilled in me. You found all the sore spots and muscle knots and explained how you were working on each one. My time with you went by much too fast.

I was impressed with the many great reviews I found online for you. All are rave reviews for your skill and intuition. I highly recommend you to my friends and want them to have the same relaxing experience that I had. Your fees are reasonable, and it's great that you offer various options of time depending on what your clients need.

I am thankful for your special gift of healing.

With Much Admiration,
