Michael,

I would like to take this opportunity to thank you for assisting a client of mine with a potentially expensive Real Estate problem. He had purchase a piece of property that had some issues post-closing and he could have possibly lost the property. He called me to make sure that I knew that that the referral to you was very helpful and he was extremely pleased with the service and professional commitment you provided him. I also know that he has done several closings with you and that is a testament to the great service you provide your clients.

I know that when I refer clients to you that we always have a great experience all the way through the closing process.

It is a pleasure to do business with you and I highly recommend your services to anyone with a closing need or real estate issue that they need help with.

Best regards,
