RE: Ryan Tingle, Tabb Insurance Agency

When I met Ryan in early 2019, I was impressed with his vast knowledge of the insurance industry. He could speak with confidence on homeowners', auto, life insurance, and a wide range of business insurance policies. A few months later I decided to ask Ryan to quote my family's homeowners' policy as well as our auto insurance. With two drivers under the age of 25 – our auto rates were sky high and we really wanted to find some relief but did not want to give up the security of a well-respected insurer.

Ryan returned my quotes quickly. He could have just sent me an email, but took the time to walk through all of the information so that I was comfortable with the recommendations he made. When I was unfamiliar with the carrier Ryan suggested, he explained the company's long history and assured me that he had written many policies over the years with the company – always to his customers satisfaction. By being so knowledgeable about carriers that are not as well known in the south, Ryan was able to place our policies with a company that is nationally well known and respected while still saving us a combined \$2000 a year on home and auto coverage.

After this wonderful experience, I referred my nephew to Ryan. He was so thrilled – Ryan was able to save him nearly \$600 per year and get him better coverage at the same time. This combination of price and service is so valued and often not found in the insurance business.

In just the few months since we wrote our auto policy, we have changed cars on the plan three different times. Each time Ryan's team handled the request quickly and with great consideration.

I highly recommend Ryan and the Tabb Insurance Agency to anyone looking for great service at a very competitive price.

Sincerely,

DeNita Carani
