

Dear Louis,

I just wanted to take a minute and thank you for the very professional and intensive inspection you performed on the historic home that I am buying in the West End of Atlanta.

I have been an interior designer for over 22 years and have worked with many inspectors who were involved with the sale of client's homes before we took possession for the purpose of renovation. Your efforts went beyond the requirements needed and your attitude with regard to the details of the home that I am purchasing has given me a level of comfort that I do not believe I would have otherwise. For a home that is 120 years old, perhaps the biggest risk is what you don't see. I feel comfortable that if it could be seen, you did.

Thank you for everything and please send anyone who might need a referral for you my way. I thoroughly enjoyed working with you and your report and follow-up were amazing.

Thanks again,

Barbara English
