Hello Lisa.

What does a referral giver want. I told my client, Angelica B. about you several months ago and from time to time she gave me brief updates telling how her house search was going. Fast forward to last week, she came in and announced she had closed on her house and she was completely thrilled with the whole experience.

She says Lisa Wrenn is the most patient person she knows.

I hope your future clients need a referral and that when they call me I will be glad to add my praises to your list.

Thanks for your hard work....

Sincerely,
Stephen Cohen
