Dear Nance:

Thank you for your assistance in securing a new suite for my law firm. Your ability to listen and appreciate my individual needs as your client and zero in on my priorities and preferences was much appreciated. You presented me with a comprehensive picture of the market and relevant options for properties to accommodate my business needs. You are intuitive, intelligent and effective.

During the process of securing my new space, a number of changes, opportunities and challenges arose that altered the timing and type of space that would meet my needs and ultimately be secured - you managed the process with professionalism, patience and positivity. Your involvement and coordination was integral to my ability to confidently sublease a new space so quickly after it had been marketed.

Please accept this letter as my recommendation of your work. I would highly recommend you to any business large or small looking for space, without hesitation.

Sincerely,

Amy Yarkoni
