Terisha Tatter

Dear Terisha,

You are *GREAT!*

As you know, I was a massage therapist in a former life. Since I was in the profession, I have received many massages over the years. I believe that my experience in massage therapy has made me a better judge of massage therapists than most of the public. Fortunately, there are many good therapists. But there are only a few great ones, and you certainly are among them.

It takes great skill and talent to be able to translate what a client is saying and how they respond to your work to figure out what really is wrong and what you should do for it. It takes great intuition to be able to figure out what would feel good to the client at each point during the therapy. You clearly have everything it takes to achieve great results for your clients.

Whether someone wants to treat themselves to the gift of touch or needs remediation of pain, I very strongly suggest they let you do your magic. You will make them feel much better and very glad that they came to see you.

Terisha, you have a gift. Thank you for sharing it with me.

Sincerely,

Bill Murphy
