Dear Sarah-Anne,

Thank you for designing such wonderful business cards for me. I really appreciate you because the cards I had before were plain and bland and I wanted something that was bold and stood out. Even though I felt the color selection I chose seemed difficult, when I spoke with you, you immediately made my ideas and the brand flow together.

During the process I felt heard as well as educated because you made me feel comfortable to speak my thoughts and taught me where the eyes go with certain designs. I knew in the end you wanted me to have the perfect card and I must say I've never had one better. I get many compliments on my card when I give it out and they're not just about the look but the feel as well.

If a design is what you need, then I have full confidence that Sarah-Anne will capture the vision you are trying to convey with stunning imagery and a look and feel that is your brand. It was great to work with her and if I need additional designs, I know who to call.

Best Wishes,

*X Brenden Jonassaint*
