Re: Martin Gonzalez: NGT Technologies

To whom it may concern:

I worked with Martin last month to get a new monitor for my computer. Mine had just died on me while working one day. Martin got me a new Dell 27" monitor and delivered it to my office the next day. Not only did he go out of his way to make sure I got a great monitor at a great price, but he hand delivered it to my door in less than 24 hours.

Needless to say I was very impressed with his service and I would highly recommend him to anyone that is in need of computer or IT help. In fact we are ordering another monitor from him for my business partner as he was quite impressed with the price and service that Martin supplied.

Martin is the consummate professional and would be a great asset to anyone looking for someone with his expertise. Thank you again Martin for all of your help!

Sincerely,

Robert A. Jackson
