Dear Dr. Cynthia Seebacher:

I recently developed a problem in my left foot. I am on my feet most of the day so when the pain got so bad it was difficult to walk, I went to a local urgent care to see about it. After a short exam, I was told due to my age, it was probably "Gout". After researching what "Gout" was, I was skeptical.

When I think of a Chiropractor, foot problems do not immediately come to mind, but when Dr. Cynthia was willing to look, I stopped by her office. Glad I did. After her exam she diagnosed me with "Peripheral Neuropathy" and adjusted my foot. The pain began to subside, and over the course of a couple of days, the pain was gone, and a few days later the swelling was gone too.

I wholeheartedly recommend Dr. Cynthia to anyone who might have special (or not so special) problems. Dr. Cynthia is one of the good ones that make Chiropractic a great alternative to drugs or surgery.

Thank you.

Sincerely,
