Re: Letter of Endorsement

Dear Jacque,

I want to thank you for educating me on my skincare needs which I have absolutely taken for granted. See, I am of a certain age where skin care is important to balance the signs of aging. After participating in your then and now campaign, I was blown away with how my skin glowed. Further, I was highly impressed with your extensive knowledge of skincare and what my skin needed. Not to mention, I love your glam and trendy vibe which made the whole experience more memorable.

During our time together I felt pampered, relaxed, and rejuvenated. Your dedication and passion to helping women feel their best in the skin they are in is remarkable, and it shows in the exceptional service that you provide.

I am still raving about the eye patch you recommended; it was simply amazing, not to mention one of several products I couldn't leave without! It's clear you love what you do so it's not surprising that you have gained pink Cadillac status several times over.

You are committed to making every woman feeling their best both inside and outside which is what I felt so I have no hesitation recommending you to anyone looking for exceptional beauty services and products.

Thank you for helping me see my natural beauty.

Best Regards,

Atlanta Portrait Photographer
