Hi David,

I want to share what I posted on my neighborhood FaceBook page about the tree work you did for Ken and me. We were both very pleased with our interactions with you and your team.

I highly recommend David Breeden with Georgia Tree Masters for anyone needing tree work done. After meeting with my husband to give an estimate of the work he wanted done, the crew came one morning to cut down several pines in our back yard... including a huge tree which was literally right next to the back fence dividing our yard from our neighbor's. The crew was polite, efficient, and respectful of our property. The job was completed in just a few hours, the area was cleaned (and looked better than when they arrived) and the cost was very reasonable -- particularly given the "degree of difficulty" with that one tree. Should you need tree work done, please contact David Breeden at 678-858-3931.

I know David from my PowerCore referral marketing group and I have been very impressed with his integrity, his attention to safety and especially with his knowledge as an ISA Certified Arborist with 20 years of experience.

Thanks again for the Job Well Done!
