

To Anyone Who Strives To Feel Better:

When you move to a new area you have to make many new choices about the companies and people you do business with. You need to pick a service to pick up your trash. You need to pick a company to connect your TV. You even change locations where you bank and where you get gas in your vehicle. All these important things have got to be taken care of. But what about taking care of yourself and your loved ones?

We pick who cuts our hair. We pick our dentist. But what about our health? At times we are left to limited default choices when it comes to this important decision.

My family and I have been blessed to have met Dr. Laurie Dady the owner and operator of a functional medicine center. She provides our family experienced chiropractic care and a whole-body approach to insure positive results.

Dr. Dady through patience and viable suggestions has helped our family discover a healthier lifestyle and provided viable realistic options. We are particularly impressed with her ability to absolutely improve the health and well-being of my wife, Tania, who was dealing with multiple frustrating issues.

As an accomplished athlete, Dr. Dady even provides interested assistance and guidance for one of our sons who is on a track to excel in Cross Country Running.

My family recommends her services to anyone who has felt like they have just had to learn to deal with or adjust to the failing or diminished conditions of their body and mind.

Please feel free to reach out to me directly if I can ever offer any assistance in generating a valuable referral connection to the The Center For Health and Healing.

Do good and be well,

Jim Hilber
