To People Needing Home Funding,

After years of renting and moving around, we decided to become Home Owners again. I've spent many Fridays listening to EJ Farge talk about mortgages and all the ways he has been able to help people in unique situations. We sat down and talked to him last December and were impressed with his knowledge and creative thinking when navigating the tricky mortgage highway.

EJ worked tirelessly with us and he truly has the patience of a saint. My husband is in military intelligence and we pursued a VA Loan which has its own kind of intricacies. We especially made EJ's job fun when every question he asked my husband resulted in an answer of "I can't tell you", but he kept his smile in place and figured out a way to make it happen. He especially had to jump through hoops the last week to make sure closing happened on time before my husband was deployed.

I highly recommend EJ for any of your mortgage needs. He is extremely knowledgeable and is an innovative thinker. He will get you in your dream home in no time.

Sincerely,
