

## Active Community CHIROPRACTIC

February 29, 2012

Dear Terisha,

Never in my life have I met a more dedicated, knowledgeable, or compassionate massage therapist. As a chiropractor, I pride myself on being able to get patients well, regardless of the circumstances; however, in reality, I often need adjunctive therapies for my patients that I am not able to provide. Massage therapy has always been one of the things I turn to first, but rarely have I found a good massage therapist – that is, until you came along!

I can honestly say that meeting you last year has been one of the best things for my business and my personal life. I know that I can refer my patients to you, and they will be in the best hands. In fact, I tell all my patients about you! Not only do they fall in love with you after they experience one of your life-enhancing massages, but you also make me look good, as they start to understand that I really do want what's best for them.

For me personally, you have been a tremendous help. As someone who lives with Multiple Sclerosis, massage is hit or miss. I have been injured from every other massage therapist, but that is not the case with you. Due to your thirst for knowledge and continued education, I know that you are guided with expertise and intuition. I trust that you would never provide anything but the best.

Thank you for being a true gem. I would not hesitate to refer you to anyone, and I look forward to telling the world about you!

Cheers,

Dr. Hailey Heard
