Car Driving Small Business Owners,

If you've ever considered wrapping your car, do it!

For the 2nd time in my business owning carrier I've wrapped my vehicle and in just two weeks I received more attention and compliments than ever thanks to Kriston & Jess at id8 and their design work.

I've quoted more people in the last two weeks that I've known for a year or more than ever before and the trigger was my vehicle. Now people at the gas station are initiating conversations with me about getting quotes.

People don't notice branded polos shirts and who doesn't have dozens of promotional pens, but a wrapped your vehicle, that stands out! Kriston said it would increase phone calls and it has! In the last 7 years it's been the quickest boost for my business in terms of new contacts and quotes.

Boldly,

Tommy Schlosser
