To all concerns,

In my short time as a business owner my lack of tax knowledge became very clear the first time my taxes were due. Len stepped in and helped me get through that part with ease. Now flash forward a year, and I get a letter from the IRS about a huge issue from when I opened up along with a pleasant readjustment/bill for about 18k. Let me make it clear, this was nothing to do with the taxes Len had done for me. Needless to say, my first call was to Len. If you need someone to help you with your business taxes Len is the guy. If you need someone to help you with the IRS, Len is REALLY your guy.

Thank you Len,

Justin Cox
