Home and Business Owners in need of an office/home facelift via color,

Being in the same office for over 15 years, the walls were in desperate need of a color change. The eggplant purple with flowered wallpapered borders needed to exit the building many moons ago! Knowing we didn't have the time to do the work ourselves, we started getting quotes from different contractors. The quotes we were getting were crazy high and the timeframe to complete the work was way too long. Enter Shawn Livingston and Total Home Repair!

Shawn came in after we had received those other quotes and gave us a quote and a timeframe that was very reasonable. Not only did he and his guys do an incredible job, it was done efficiently as well. Their attention to detail and professionalism was top notch! I have recommended Shawn to many of our patients and have heard from them that they experienced the same great service and have referred Shawn and Total Home Repair to their family and friends.

Gone are our purple walls of our office to a very tranquil "inner balance" (the actual color of the paint, lol) paint color. Perfect for what we do in our business. We already have plans for Shawn and crew to return and we look forward to it knowing the outcome will be, once again, fantastic!

Happy and Grateful Customer,

Dr. Laurie Dady
