

To whom this may concern,

I personally have done business with Virgil Dortch. I called Virgil at 7:30pm at night needing help before going out of town on vacation with a insurance policy. After talking with a Virgil, he was able to recommend me a plan that made the most sense for my needs, and was able to cut my cost down by 30%. My expectations upon calling him was quite different. I thought that all Health Market Place individuals would only sell me the same plans. I realize quickly that Virgil not only had a variety of options, but his knowledge of the industry was able to guide me towards the savings I experience. I'm currently working with Virgil on getting some coverage for my girlfriend who is changing jobs as well.

I would highly recommend Virgil Dortch for any and all Health Market Solution needs. He is a professional and upstanding character in the community.

My best regards,

David Lamar Schleier
