Dear Tim Cowan,

Its been 2 years since we started doing business together. Since then I've seen you buy and sell hundreds of homes. All though I haven't personally used you myself I've seen the process first hand! Being part of your team has been a real honor in seeing the way you handle your business, it's been a real stepping stone for me. Handling all your customers flooring has been great and profitable, but the real profit comes from picking up things I've seen you do with your clients that I have implemented in my own business. You tell customers the real cold hard facts no sugar coating or Bolani. Customers expectations are set right and they know exactly what they're getting. I hear customers after the sell is complete or the house is bought and all of them have nothing but positive feedback. Keep up the great work by **FLOORING** us all with your master salesmanship! Good Job Timmy!

Sincerely,

Brackenridge Floors, LLC
