Dear Mr. Stennett,

I want to thank you for taking care of my client Barbara. She was referred to me by a long time client and had what looked like minor damage to her home from water heater leak. As a precaution I had the home tested for mold and it came back positive. That meant that it was well beyond a sheetrock repair and I needed a specialist.

You and your crew assessed the additional damage that needed to be remediated and removed the mold damaged carpet and bathroom tile that was retaining moisture. You dried out the space and repaired the damage. Throughout the process Barbara let me know what was going on.

When you finished, Barbara told me that "They are an excellent team and I would recommend them to anyone!! I'm very grateful to have them here to work on my home ... I'm sooo excited about getting my home back and moved in - I've positively ruined my manicure unpacking everything and putting things back where they belong."

My client is happy and back to living in her house. Thank you for giving my client their home back.

Best regards,

Mike Smith
