Dear Janine,

I would like to express my deep gratitude for you. There are two main reasons why you stand out professionally, which are competence and integrity.

Your competence is demonstrated in the consistency of your work. Everyone knows that if you need insurance, Janine can help you quickly, easily, and for the best price. When I found my dream practice space but needed an insurance policy in place immediately, you made it happen. Not only did you work with amazing speed, you also got me a great price. I'm paying significantly less than my neighbors and my policy covers everything I can imagine. That puts my mind at ease as a business owner.

Your integrity shines in the way you conduct yourself professionally as well. I was so happy with my business insurance that I asked you to give me a quote for switching my car insurance over to Nationwide. You showed me the price comparison of Nationwide and a few competitors and determined that it actually made the most sense for me to stay with my current policy. That kind of honesty and integrity can be rare, but you have it in spades.

Thank you for protecting my business and being such a great person.

Sincerely,

Dr. Paul Gross
