Suite 510,  
Marietta, GA

Dear Debbie,

✿

Essex Roofing went above and beyond in helping us get our storm damaged roof replaced. We had worked with several other local roofing companies who tried to work with our insurance company, Allstate. For the last eight years, not one single company was able to convince Allstate that our roof had suffered storm damage while other neighbors on our street were getting theirs done through insurance. What is even more amazing is that our roof was just shy of being twenty years old.

Your team was prompt and professional throughout the entire process; guiding us from beginning to end. The day before the roof was to be replaced, all the materials were delivered. At 7am, on the day the roof was replaced, your team started promptly and completed the roof in one day. The yard and surrounding areas were cleaned up with no traces of nails or trash. The left over materials were picked up in a few days.

We now have a beautiful roof. In fact, my neighbor said the house looked bigger. Because your team was able to help us with the insurance claim with Allstate, the money we had set aside to replace the roof can now be used to redo our back deck. We highly recommend Essex Roofing for their attention to detail and the smooth process.

Thank you,

*Linda Carroll*
