

April 24th, 2020

Dear Dr. Kenny,

I need to officially thank you for all you've done for the health of myself, and my baby. I started seeing you beginning of 2019 for chiropractic care, and then more throughout the year to help with my "pregnancy back." I always appreciate how thorough you are at the visits and the exercises you give me to practice at home. The extra therapies you offer compliment your chiropractic care at no extra cost... THANK YOU!

Throughout my pregnancy, you truly kept me walking when baby Lilith was pushing against my pelvis and lower back resulting in spasms and nerve surges often grounding me. I really appreciated how your therapy and chiropractic beds could accommodate my growing belly making the appointments a pleasant experience that I looked forward to.

As you know, I have another chiropractor that I am loyal to and also see regularly... thank you for working WITH Dr. Callaway and not against him or ever trying to steer me away. You went above and beyond when you came with me to one of his chiropractic appointments to see his methods. I am not sure of another chiropractor that would have taken the time and humility to do a visit like that.

Thank you for always giving me exemplary care and guiding me through my very physical lifestyle. I never hesitate to refer you to my family and friends. Thank you for never letting me down on their care too.

Best Regards,

Tyler Peabody
