

Dr. Kenny,

I wanted to thank you for the fantastic work you do for me. I called your office at the last minute to change my appointment due to a migraine that I was having. I have been a migraine suffer since I was 10 years old and I knew that this one was a doozy. Your staff worked me in that afternoon. They welcomed me quietly, and quickly got me to a dark, quiet and cool room to wait for my treatment. Once you started to adjust me I could feel the pain start to subside and within a few minutes of being done the light sensitivity that accompanies my migraines was gone. You told me to rest when I got home and by the end of the evening I was back to normal. I have never had a migraine vanish like that and you'll always be my first call when I feel one coming on. Thank you again for all of the amazing work that you and your amazing staff do.

A handwritten signature in black ink, appearing to read 'Shelby Behret'. The signature is fluid and cursive, with a long horizontal stroke extending to the right.
